

Elevator

Elevators provide vertical transportation in buildings. They enhance accessibility and convenience.

Overview

Professional Vertical Transport Solution

This elevator system is designed to provide reliable and efficient vertical transportation for professional environments. Engineered with a focus on safety and smooth operation, it integrates seamlessly into modern infrastructure. Its robust construction ensures long-term durability and consistent performance for high-traffic facilities.

Performance Metrics

Rated Load Capacity

1000 kg
Capacity

Operating Speed

1.75 m/s

Technical Specifications

Door Operation

- Automatic center opening
- Adjustable dwell time
- Obstacle detection

Control System

Microprocessor-based VVVF drive

Safety Features

Emergency Landing, Overload Protection, Light Curtain, Fireman Return

Compliance

Certifications

ISO 9001 • CE Certified • EN 81-20
