

# Elevator Caster Wheel

Heavy-duty caster wheel designed for elevator applications. It features durable construction for reliable performance and a long lifespan.

## Product Overview

### Heavy-Duty Elevator Caster Solution

This heavy-duty caster wheel is specifically engineered for demanding elevator applications, ensuring reliable performance and an extended operational lifespan. Designed to provide smooth and stable movement, it is an ideal component for elevator systems and can also be utilized in agricultural construction machinery, such as cranes. The unit comes complete with a robust mounting bracket and a retaining pin, facilitating secure attachment for critical industrial environments.

## Technical Specifications

### Included Components

- Heavy-duty caster wheel
- Mounting bracket
- Retaining pin

### Performance Benefits

High Durability • Smooth Movement • Secure Attachment • Long Lifespan

### Primary Applications

Elevator Systems, Agricultural Machinery, Cranes, Construction Equipment
