Overview

Professional EM Security for Libraries and Bookstores

The ES008 is a high-performance Electromagnetic (EM) security system specifically engineered to protect valuable inventory in bookstores and libraries. Utilizing advanced resin-glass and MDF construction, it provides a discreet yet durable barrier against unauthorized removal of items. This system offers reliable detection of EM labels, ensuring comprehensive loss prevention while maintaining an open and welcoming entrance for customers.

Key Performance Metrics

Performance Highlights

170 cm

Detection Height

80 cm

Detection Width

5000 sets

Weekly Supply Capacity

Technical Specifications

Unit Dimensions	150 x 40 x 3 cm
Working Voltage	110V - 240V
Operating Temperature	-20°C to 60°C
Construction Materials	Advanced Resin, Glass, MDF

Installation & Configuration

Aisle Configuration Options

Setup Type	Components	Detection Range
Single Aisle	1 Transmitter + 1 Receiver	75 - 100 cm
Double Aisle	1 Transmitter + 2 Receivers	150 - 180 cm
Multi Aisle	1 Controller Box (up to 3 antennas)	Extended Distance
