

# Emergency and Indicator Light

This light functions as both an emergency light and an indicator light. It is suitable for safety and signaling applications.

## Product Overview

### Innovative Dual-Function Design

This versatile product combines the functionality of athletic footwear with the recreational fun of roller skates. Featuring retractable wheels in the heel, it allows for seamless transitions between walking and skating. With a durable construction, lace-up closure, and padded interior, it is designed for both comfort and easy maneuverability.

## Technical Details
