

Emergency Escape Hammer with Seatbelt Cutter

This safety hammer is a versatile emergency tool designed for vehicle safety. It features a hardened steel point for breaking windows and a seatbelt cutter for quick escape.

Product Overview

Emergency Escape Utility

This emergency escape hammer is a critical safety tool designed for rapid response in vehicle-related incidents. Featuring a hardened carbon steel striking point for glass breakage and an integrated seatbelt cutter, it allows for a swift escape in life-threatening scenarios. Its compact, durable design makes it an essential component for any automotive safety kit.

Technical Specifications

Hammer Material	Carbon Steel
Integrated Features	Hardened Steel Hammer, Seatbelt Cutter
