

Emergency Exit Indicator Light

This emergency exit indicator light features a running person pictogram and directional arrow. It is designed for clear visibility in commercial and public buildings during emergencies.

Product Overview

Emergency Exit Indicator Light

This emergency exit indicator light is engineered for critical safety applications in commercial and public buildings. Featuring a clear, high-visibility design with a running person pictogram and directional arrow, it ensures occupants can easily identify exit routes during power outages or emergencies. The dual-language signage supports both English and Chinese, making it suitable for international facilities and diverse environments.
