

Emergency Exit Indicator Light

This emergency exit indicator light features a green background with white lettering for clear visibility. Its durable casing and bright illumination facilitate easy identification of exit routes in commercial, public, and industrial facilities.

Product Overview

Reliable Emergency Guidance

This emergency exit indicator light is engineered for critical safety applications in commercial, public, and industrial environments. Featuring a high-visibility green background with clear 'EXIT' and bilingual signage, it ensures rapid identification of evacuation routes during power outages or emergencies. Its durable construction provides long-lasting reliability and ensures strict adherence to safety compliance standards.
