

# Emergency LED Ceiling Light

This LED ceiling light provides ambient illumination for indoor spaces. Its integrated emergency lighting function ensures continued operation during power outages, enhancing safety and security.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Emergency Illumination

This LED ceiling light combines modern aesthetic design with critical safety functionality. Engineered for both residential and commercial environments, it features energy-efficient LED technology that reduces power consumption while ensuring long-lasting performance. Most importantly, the integrated emergency lighting system guarantees continued operation during power outages, providing essential safety and security when it is needed most.

## Technical Specifications

Mounting Type	Ceiling Mount
Emergency Features	Yes
Finish Color	White

## Design & Aesthetics

Available Designs	Shell-shaped, Multifaceted Geometric, Circular with Spiral Pattern
-------------------	--

## Usage & Application

### Recommended Applications

- Residential Spaces
- Commercial Buildings
- Emergency Lighting Solutions

### Key Benefits

Energy Efficient • Power Outage Ready • Easy Installation • Durable Construction
