

# Emergency Safety Light with Rechargeable Battery

This emergency light provides illumination during power outages or emergencies. It features adjustable light heads and a rechargeable lead-acid battery.

## Overview

### Reliable Emergency Illumination

This emergency safety light is designed to provide dependable illumination during power outages or critical situations. Featuring dual adjustable light heads, it allows for targeted lighting where it is needed most. The unit is equipped with automatic light-up functionality and comprehensive overcharge and overdischarge protection to ensure long-term battery health and reliability.
