Product Overview

Emergency Vehicle Mini LED Light Bar

This high-performance mini LED light bar is designed for mission-critical emergency response and traffic control applications. Featuring advanced LED technology for superior luminosity and low energy consumption, it ensures maximum visibility for police, industrial, and service vehicles. The durable, high-impact resistant construction is built to withstand harsh environmental conditions while providing versatile, easy installation options for various vehicle types.

Technical Specifications

Mounting Styles

- Magnetic Base
- Fixed Mount

Voltage

12V DC

Available Colors

Red, Blue, White, Amber, Green

Features

Controller Functions

- Flash pattern selection
- Power control
- Alley light activation

Construction

High-impact resistant • Weatherproof • Durable lens
