Encapsulated LED Indicator Light

This is a compact, encapsulated red LED indicator light with a bright yellow center. The light is mounted on a red, rectangular plastic base with rounded corners and two mounting holes for secure attachment.

Overview

Compact Visual Signaling Solution

This encapsulated LED indicator light is designed for reliable visual signaling in a wide range of electronic applications. Featuring a bright yellow center within a compact red housing, it ensures high visibility and clear status indication. The unit is built for durability and ease of installation, making it an ideal choice for professional electronic assemblies.

Physical Characteristics

Housing Color	Red
Indicator Color	Yellow
Mounting Style	Surface mount with two mounting holes
Form Factor	Rectangular with rounded corners

Features

Construction

Encapsulated • Durable Plastic

Suitable Applications

- Electronic signaling
- Status monitoring
- Control panels
