

End Cutting Pliers

These end-cutting pliers are designed for flush cutting and nail pulling. Their hardened cutting edges provide durability and precision for tasks such as cutting wires and removing nails.

Product Overview

Professional End Cutting Pliers

These premium end-cutting pliers are engineered for precision and durability, featuring a hardened cutting edge ideal for flush cutting and nail pulling. Constructed from high-quality alloy steel, they provide the strength required for demanding construction, electrical, and repair tasks. The double-dipped cushion-grip handles ensure superior comfort and control during extended use, making them a reliable choice for professional applications.
