Overview

High-Precision Dual-Function Grinder

This versatile grinding machine combines two functions in one unit, designed for sharpening both end mills and twist drill bits. It is engineered for high precision and efficiency, making it an essential tool for small-to-medium enterprises, workshops, and maintenance facilities. With adjustable settings and a robust design, it allows operators to achieve professional grinding results even without extensive experience.

Technical Specifications

Adjustable grinding holders for primary and secondary relief angles to ensure precise sharpening.

Model	MR-F4
End Mill Diameter Range	∅4 - ∅14mm
Drill Bit Diameter Range	∅3 - ∅14mm
Power	160 W
Voltage	220V
Speed	4400 rpm
Point Angle Range	95° to 135°
Dimensions	35 x 25 x 30 cm
Weight	21 kg

Features

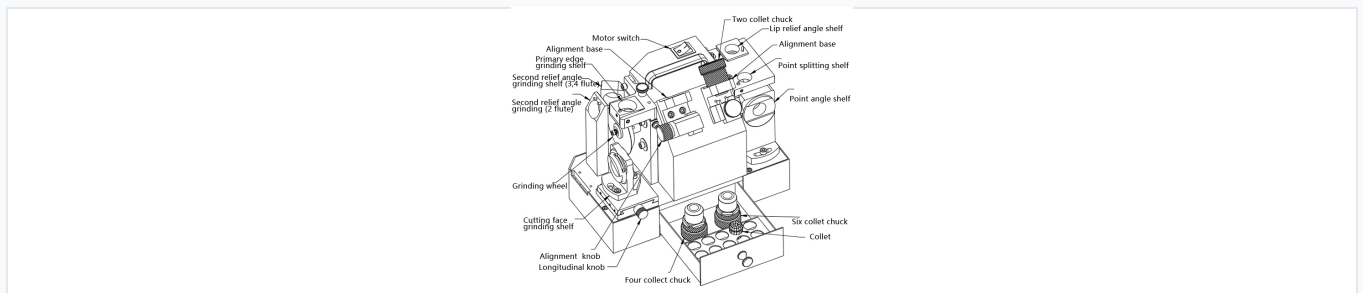

Certifications

China National Patent • CE Certified

Grinding Capabilities

End Mill Sharpening, Twist Drill Sharpening, 2-Flute, 3-Flute, 4-Flute, 6-Flute

Equipment

Detailed component identification including grinding shelves for primary edges, relief angles, and point splitting.

Standard Equipment

- 1x SDC Grinding Wheel (for carbide)
- 1x CBN Grinding Wheel (for HSS)
- 12x Collets (∅3-∅14mm)
- 1x Collet Chuck (for 2, 4 flutes)
- 1x Collet Chuck (for 3, 6 flutes)
- 1x Drill Bit Collet Chuck (∅2-∅14mm)
