

# End Mill Sharpener Grinder 4-14mm

This portable end mill sharpener can grind 2, 3, 4, and 6-flute end mills. Grinding is accurate and rapid with easy operation.

## ADDITIONAL IMAGES

## Overview

**Accurate to the knife**

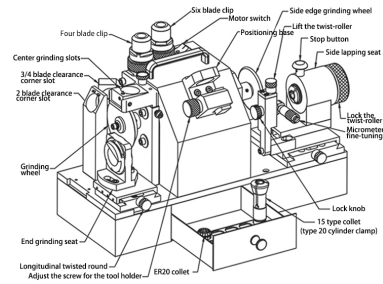

The machine can grind the end face of the milling cutter, the center Angle, the clearance Angle and the side edge respectively, and the precision is high, and the cutting edge can be directly cut by the round rod type high speed steel and tungsten bar.

Precision grinding capabilities for end faces, center angles, and clearance angles.

### Precision End Mill Sharpening

This portable end mill sharpener is engineered for accurate and rapid grinding of 2, 3, 4, and 6-flute end mills. Designed for ease of use, it requires minimal operator skill while delivering professional results. The unit features a durable diamond grinding wheel capable of completing all sharpening procedures in a single setup, ensuring consistent angles and extended tool service life.

## Technical Specifications

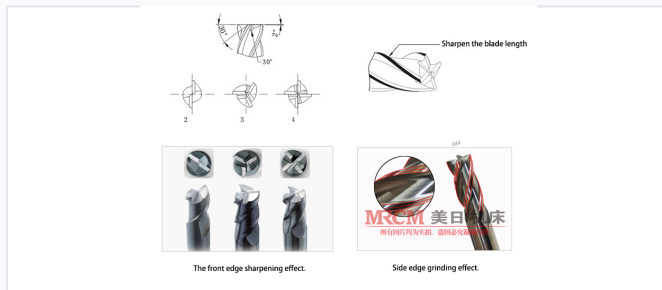

Key components including the side edge grinding wheel, micrometer fine-tuning, and ER20 collet system.

<b>Model</b>	MR-X6
<b>Grinding Diameter</b>	4-14mm
<b>Power</b>	250 W
<b>Voltage</b>	220 V
<b>Rotation Speed</b>	4400 rpm
<b>Point Angle</b>	0°-5°

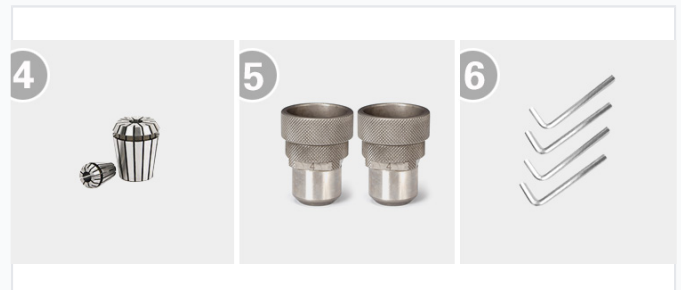

## Physical Attributes

<b>Dimensions</b>	42 x 25 x 30 cm
<b>Weight</b>	23 kg

## Equipment & Compatibility

Demonstration of front edge and side edge sharpening effects for 2, 3, and 4 flute end mills.

Included collets and adjustment tools for secure tool holding and precise setup.

### Grinding Wheel Options

Wheel Type	Material Application
SDC (Standard)	Carbide
CBN (Optional)	HSS

<b>Supported Flute Counts</b>	2-flute, 3-flute, 4-flute, 6-flute
