

# Energy Efficient LED Bulb

This LED bulb is designed for energy efficiency and long-lasting performance. Ideal for various lighting applications, it offers a cost-effective and environmentally friendly alternative to traditional incandescent bulbs.

## ADDITIONAL IMAGES

## Overview

### Energy Efficient A60 LED Bulb

This versatile A60 LED bulb is engineered for superior energy efficiency and consistent illumination across a wide range of applications. With a broad input voltage range and high color rendering capabilities, it serves as an ideal, cost-effective replacement for traditional incandescent lighting. Designed for both residential and commercial environments, this bulb combines long-lasting performance with minimal power consumption.

## Technical Specifications

### Power Consumption Range

**3 W**

Minimum Power

**18 W**

Maximum Power

### Input Voltage

85-265V

### Color Temperature Range

2700K - 6500K

### Color Rendering Index (CRI)

80 >

## Design & Compatibility

### Bulb Shape

A60

### Suitable Applications

Residential, Commercial, General Illumination
