

Energy Efficient LED Light Bulb

This LED bulb is a modern lighting solution designed for energy efficiency and long-lasting performance. It features a standard screw base for easy installation in a variety of fixtures.

Product Overview

Smart Lighting Solution

This LED bulb is a modern lighting solution designed for energy efficiency and long-lasting performance. It features a standard screw base for easy installation in a variety of fixtures and provides a bright, white light suitable for general illumination. The construction includes a durable plastic housing and an integrated heat sink to ensure optimal thermal management and an extended lifespan.

Technical Specifications

Key Features	Light Sensor, Motion Sensor, Energy Efficient, Integrated Heat Sink
Housing Material	Durable Plastic
Light Type	Bright White
