

Energy-Efficient LED Linear Office Light

This linear LED office light is made with high-quality materials for durability, ensuring resistance to rust and oxidation. It provides energy-saving, environmentally friendly, and low-carbon lighting with no flicker, noise, or radiation.

Product Overview

Professional LED Linear Lighting

This energy-efficient LED linear light is designed for durability and performance in professional environments. Constructed with high-quality materials to resist rust and oxidation, it provides flicker-free, silent illumination without radiation. Its low-glare, soft light output makes it an ideal solution for offices, restaurants, and commercial plazas looking to reduce energy consumption by up to 80%.

Product name	Power	Lumen	Color temp.	Light source model	Voltage	Product dimensions	Package size	pcs/CTN
OFFICE LIGHT	30W	1500lm		2835	180-265V	1200x65x40mm		15
	35W	1800lm				1200x95x40mm		10
	40W	2500lm	4000K/6500K			1200x125x40mm		8
	50W	3300lm				1200x190x45mm		4
	80W	6000lm				1200x280x45mm		4

Detailed performance specifications for various linear light models.

Performance Metrics

Power (W)	Lumen (lm)	Dimensions (mm)	Qty/CTN
30	1500	1200x65x40	15
35	1800	1200x95x40	10
40	2500	1200x125x40	8
50	3300	1200x190x45	4
80	6000	1200x280x45	4

Light Source Model	2835
Operating Voltage	180-265V
Color Temperature	4000K, 6500K

Key Features

Key Benefits

- Energy saving up to 80%
- No flicker, no noise, no radiation
- Low light decay
- Corrosion and oxidation resistant
- Easy to install

Application

Recommended Use

Home • Restaurant • Office Area • Commercial Plaza
