

Energy-Efficient LED Tube for General Lighting

This LED tube is designed for general lighting purposes. It is energy-efficient and provides a long lifespan compared to traditional fluorescent tubes.

Overview

Energy-Efficient LED Solution

This LED tube is engineered for general lighting applications, offering superior energy efficiency and a significantly longer lifespan compared to traditional fluorescent lighting. It is designed for versatility, making it an excellent choice for residential, commercial, and industrial environments. The product ensures reliability and safety through adherence to rigorous international standards.

Compliance & Standards

Certifications

CE, RoHS, FCC

Application

Suitable Environments

- Residential
- Commercial
- Industrial
