

# Engine Connecting Rod Bearing for NISSAN H20

Connecting rod bearings designed for NISSAN H20 engines. They provide a smooth interface between the connecting rod and the crankshaft, ensuring optimal engine performance.

## ADDITIONAL IMAGES

## Product Overview

### Engine Connecting Rod Bearing

These connecting rod bearings are precision-engineered to provide a smooth and durable interface between the connecting rod and the crankshaft. Designed specifically for the H20 engine platform, these components ensure optimal engine performance and longevity. Each set is manufactured to meet or exceed original equipment specifications for fit and function, ensuring reliable operation under varying loads.

## Technical Details

### Size

STD

### Compatible Engine

H20

### Part Markings

HR21D, CLS, HK

## Compatibility

### Supported Engine Brands

- Mercedes-Benz
- Fiat
- Iveco
- Caterpillar
- Toyota
- Nissan
- Isuzu
- Cummins
- BMW
