

# Engine Connecting Rod Bearing Set

This engine connecting rod bearing set is essential for maintaining and repairing engines. The components are suitable for a range of applications, from heavy-duty trucks to industrial equipment, and are designed to meet the rigorous demands of modern engines.

## ADDITIONAL IMAGES

## Product Overview

### Engine Connecting Rod Bearing Set

This connecting rod bearing set is engineered for high-performance engine maintenance and repair. Designed to meet rigorous durability standards, these components ensure optimal engine longevity and reliable operation under demanding conditions. Each set is packaged for secure distribution, making it an essential choice for professional engine servicing and industrial equipment upkeep.

## Technical Specifications

Part Number	4089405
Package Weight	0.7 kg
Package Reference ID	8166212-1
Manufacturing Date	2016-05-28
Quantity per Package	2

## Compatibility & Usage

### Compatible System Components

- AVR board
- Stator
- Rotor
- Rectifier bridge
- Solenoid

**Suitable Applications** Heavy-duty trucks, Industrial equipment, Power generation, Commercial machinery
