

# Engine Cylinder Head Valve Cover for BMW N55

This engine cylinder head valve cover is designed for BMW N55 engines. It provides a protective seal for the engine's cylinder head, preventing oil leaks and maintaining optimal engine performance.

## ADDITIONAL IMAGES

## Product Overview

### Engine Cylinder Head Valve Cover

This engine cylinder head valve cover is engineered specifically for BMW N55 engines, providing a secure and leak-proof seal for the cylinder head assembly. Designed to protect vital valve train components from contaminants, this cover ensures optimal engine efficiency and longevity. Constructed from durable, heat-resistant materials, it meets or exceeds OEM specifications for a precise fit and reliable performance in demanding operating conditions.

## Technical Specifications

Engine cylinder head valve cover designed for precise fitment and sealing.

Durable construction ensures resistance to high temperatures and pressures.

OE Number	11127570292
Factory Number	MT8001
Material	Plastic
Color	Black

## Compatibility

Car Fitment	BMW
Compatible Series	1 Series, 2 Series, 3 Series, 4 Series, 5 Series, 6 Series, 7 Series, X3, X4, X5, X6

## Logistics & Warranty

Standardized packaging and global shipping options available.

### Packaging

- Plastic Bag
- Inner Paper Box
- Standard Export Carton
- Neutral Packing

Warranty	1 Year
Minimum Order Quantity	50 PC
