

Engine Cylinder Sleeve

The engine cylinder sleeve is precision-engineered for optimal performance and durability. Constructed from high-quality materials, this sleeve offers excellent wear resistance and heat dissipation.

产品参数	
MODEL	XU5S/J/JA/XU7JP4
OEM REF	039WN24
CYL. NO.	4
EDGE	83
OD	88.3
TOTAL LENGTH	145
FLANGE DIA	97
FLANGE HEIGHT	99.19

Product Overview

Precision Engine Cylinder Liner

The cylinder liner serves as the essential inner wall of the cylinder, providing a critical sliding surface for piston rings while effectively retaining lubricant. This component is engineered with high anti-galling properties to minimize wear on both the liner itself and the partner piston ring. By ensuring a smooth, honed surface finish, it reduces friction and promotes efficient piston movement, ultimately contributing to better engine efficiency and extended operational lifespan.

Technical Specifications

Model Number	XU5S/J/JA/XU7JP4
OEM Reference	039WN24
Cylinder Number	4

Dimensions

Bore Size

83 mm

Bore

Outer Diameter

88.6 mm

OD

Total Length

141 mm

Length

Flange Dimensions

Parameter	Value	Unit
Flange Diameter	97	mm
Flange Height	95.19	mm

Key Features

Performance Benefits

- High anti-galling properties
- Reduced wear on cylinder liner
- Reduced wear on piston rings
- Optimized lubricant consumption
- Enhanced thermal conductivity
