Product Overview

Engine Fuel Pump Camshaft

This high-performance engine fuel pump camshaft is precision-engineered for QSL8.9, QSC, ISL, and ISC series engines. It acts as a critical component in the fuel delivery system, ensuring precise timing and volume control for optimal engine efficiency. Manufactured to meet high durability standards, it is a reliable choice for aftermarket service and automotive maintenance.

Technical Specifications

Part Number	3330991
Engine Compatibility	QSL8.9, QSC, ISL, ISC
Place of Origin	Shiyan, Hubei, China

Commercial Terms

Payment Terms	T/T
Warranty	2 years
Minimum Order Quantity	1 Piece
Lead Time	3-7 Days
