Product Overview

High-Performance Engine Valves

These precision-engineered intake and exhaust valves are designed to optimize engine gas flow and heat dissipation. Crafted from a durable combination of stainless steel and iron steel, they ensure reliable operation under demanding conditions. They are suitable for a wide range of motorcycle engine series, making them an excellent choice for engine maintenance and performance upgrades.

Technical Specifications

Construction Material	Stainless Steel & Iron Steel
Diameter	79 mm

Compatibility

Compatible Series	CG-125, CG-150, CG-200, CG-250, C-70, C-90, C-110, WY-125, WY-150, GN, EN, BAJAJ
-------------------	--

Logistics

Packaging Type	<ul style="list-style-type: none"> Paper Box Steel Box
Port of Loading	FOB Guangzhou/Huangpu Port
