

Engine Intercooler

This intercooler enhances engine efficiency and power by cooling the intake air charge. It features a robust core construction for optimal heat transfer and durable end tanks for reliable performance under demanding conditions.

Product Overview

High-Performance Cooling Solution

This all-aluminum engine intercooler is engineered to enhance engine efficiency and power output by effectively cooling the intake air charge. Its robust core construction ensures optimal heat transfer, while the durable end tanks provide reliable performance under demanding driving conditions. Designed to improve engine response and reduce the risk of detonation, this unit is an ideal upgrade for turbocharged applications.

Technical Specifications

Core Dimensions

480 mm
Core Width

133 mm
Core Height

Material

All-Aluminum

Compatibility

Compatible Vehicle Models

- Hyundai ILOAD
- Kia LMAX TQ (2008-)

Cross-Reference

OEM Reference Numbers

281904A481, 96458
