

Engine Oil Treatment for Performance Stabilization

This engine oil treatment is designed to stabilize engine oil performance and reduce oil loss. It ensures smooth engine operation, maintains strong power, and eliminates black smoke.

Product Overview

Engine Performance Stabilization

This high-efficiency engine oil treatment is formulated to stabilize oil performance, particularly under adverse weather conditions. By incorporating temperature-viscosity index improvers, it helps maintain engine lubrication integrity, reduces sediment buildup, and lowers fuel consumption. Designed for professional maintenance, this additive ensures smoother engine operation and helps maintain consistent power output.

Key Features

Performance Benefits

- Stabilizes engine oil performance
- Prevents oil decomposition
- Ensures smooth engine operation
- Maintains strong power output
- Reduces fuel consumption
- Decreases sediment buildup
- Eliminates black smoke

Technical Specifications

Volume	443 ml
Product Code	AR-1026

Certifications

Quality Standards	ISO 9001, ISO 14001
-------------------	---------------------

Safety & Handling

Safety Precautions

- Keep out of reach of children
- Store in temperatures below 40°C
- Keep away from heat and open flames
- Harmful or fatal if swallowed
- Eye irritant
- Contents under pressure
