

Engine Piston

Precision-engineered for internal combustion engines, this piston features ring grooves for optimal sealing and a robust piston pin bore. Its durable construction ensures efficient combustion and reliable performance.

Product Overview

Precision-Engineered Engine Piston

This precision-engineered piston is designed for high-performance internal combustion engines, ensuring efficient combustion and reliable operation under demanding conditions. The assembly features robust construction capable of withstanding extreme temperatures and pressures, making it ideal for rigorous engine applications. With advanced ring grooves and a secure piston pin bore, this component offers optimal sealing, oil control, and structural integrity.

Technical Specifications

Kit Contents

- Piston
- Piston Rings
- Wrist Pin
- Circlips

Application Compatibility

Motorcycle Engines • Internal Combustion Engines

Design Features

High-Temperature Resistance, Optimal Sealing, Enhanced Heat Dissipation, Wear Resistant

Markings

ITALY, RI
