Product Overview

Precision-Engineered Engine Piston Rings

These high-performance piston rings are designed to provide optimal engine sealing and durability for a wide range of automotive applications. Engineered to withstand high temperatures and pressures, they ensure efficient combustion and contribute to reduced oil consumption. Each set is precision-machined for a perfect fit, helping to extend engine life and maintain consistent performance.

Compatibility

Compatible Vehicles

- TOYOTA MASTER ACE
- HIACE WAGON
- TOWNACE
- LITEACE
- MARK VAN
- VISTA
- CAMRY
- CARINA
- CORONA

Engine Models

1Y, 2Y, 3Y, 3S

Technical Specifications

Diameter

86 mm

Diameter

Material Composition

Ring Type	Material/Design
1st Ring	Steel
2nd Ring	K1
Oil Ring	U-type, TP type

Ring Sizes

1.5 + 1.5 + 4 mm
