

Engine Starter Motor

This starter motor employs stable Argon ARC welding technology in the rotor. The switch coil winding adheres strictly to OE parts standards, while the housing mirrors OE dimensions.

Product Overview

Reliable Engine Starter

This high-performance starter motor is precision-engineered to provide dependable starting power for heavy-duty engines. Designed for longevity and consistent operation, it offers seamless compatibility with the specified vehicle systems. Its robust construction ensures reliable performance even under demanding conditions, making it an ideal choice for professional maintenance and replacement needs.

Technical Specifications

Voltage	24 V
Power Output	3.2 KW
Pinion Teeth	9
Rotation	CW

Compatibility

Compatible Engine Models

- 4D30

Part Number	M2T66871
Application	Trucks
