General Overview

High-Performance Industrial Engine

The WM188F-2 is a powerful and reliable engine engineered for professional industrial applications. It features a compact, robust structure designed for high performance, efficient combustion, and long-term durability. This versatile unit is ideal for powering generators, water pumps, and heavy-duty construction equipment.

Rated Power

13 HP

Output

Compliance & Standards

Global Certifications

CE, EPA, EC, CARB

Engine Features

Key Performance Features

- Low exhaust emissions
- Low vibration and shock
- High-capacity fuel tank for extended run times
- Easy start system
- Low oil shutdown protection
