

Erasable LED Writing Board with Neon Effect

This erasable LED board is designed for creating reusable advertising displays. Sentences can be easily written and erased from the board's surface using the included markers and cloth.

Product Overview

Innovative Neon-Effect Writing Board

This erasable LED writing board provides a dynamic and eye-catching alternative to traditional signage. Designed for high visibility, it mimics the brightness of neon signs while allowing users to hand-write and erase content freely. It is an ideal advertising solution for bars, cafes, restaurants, and retail environments looking to update their messaging quickly and effectively.

Technical Specifications
