

Ergonomic Hand Pruner for Gardening

This heavy-duty pruner features a curved blade that allows efficient cutting of branches and stems. It has ergonomic handles with non-slip grips for comfortable use.

Product Overview

Professional Ergonomic Pruner

This ergonomic hand pruner is designed for high-performance gardening and landscaping. Featuring a robust 3Cr13 stainless steel blade with mirror polishing, it delivers clean and precise cuts on branches up to 20mm in diameter. The high-grade mahogany handles provide a comfortable, durable grip, while the precision heat treatment ensures long-lasting edge retention.
