Product Overview

Professional Espresso & Cappuccino Performance

This high-performance coffee machine features a 15-bar high-pressure pump, ensuring optimal extraction for rich espresso and creamy cappuccinos. Designed for convenience and reliability, it includes a 1.6L detachable water tank, a die-casting aluminum alloy boiler, and an integrated frothing nozzle. Safety is prioritized with built-in overheating protection and automatic pressure release, making it a durable choice for home or office coffee preparation.

Technical Specifications

Pump Pressure

15 bar
Pressure

Power Supply 230V / 50Hz
