

Espresso, Cappuccino, and Latte Coffee Maker

This coffee maker is designed to brew espresso, cappuccino, and latte beverages. It features a removable 1.5L transparent water tank and a milk frothing function to make cappuccino.

Product Overview

Professional-Grade Coffee Experience

This versatile coffee maker is designed to deliver café-quality espresso, cappuccino, and latte beverages in a compact, efficient form factor. Featuring a robust 15-bar pump pressure system and an aluminum die-casting boiler, it ensures optimal extraction for rich, flavorful coffee every time. With user-friendly features like a removable water tank, adjustable steam wand for milk frothing, and an integrated cup warmer, this machine is built for both convenience and high performance.
