

Espresso, Cappuccino, and Latte Coffee Maker

This espresso coffee maker is designed for home use and can brew espresso, cappuccino, and latte beverages. It features a high-pressure pump for optimal extraction, a steam wand for frothing milk, and a removable water reservoir for easy refilling.

Overview

Professional Coffee Brewing at Home

This versatile espresso, cappuccino, and latte coffee maker is designed to deliver barista-quality beverages with ease. Featuring a powerful 15-bar pump and a 1.2L water capacity, it provides consistent extraction and the flexibility to brew one or two cups simultaneously. With integrated milk frothing capabilities and a cup warmer, this machine offers a comprehensive solution for coffee enthusiasts seeking both convenience and performance.

Technical Specifications

Pump Pressure

15 Bar

Pressure

Voltage	220-240V
Frequency	50 Hz
Power Consumption	1050 W
Water Tank Capacity	1.2 L
Product Dimensions	310 x 210 x 295 mm

Features

Safety Protections

- Over-heat protection
- Over-pressure protection
