

EU4 Three-Way Catalytic Converter for EOBD Vehicles

This three-way catalytic converter assembly is designed for EOBD-compliant vehicles. It reduces harmful emissions, including hydrocarbons, carbon monoxide, and nitrogen oxides, to meet EU4 standards.

Product Overview

High-Efficiency Emission Control

This three-way catalytic converter is engineered specifically for EOBD-compliant vehicles, ensuring optimal performance and compliance with EU4 emissions standards. The assembly effectively reduces harmful exhaust emissions, including hydrocarbons (HC), carbon monoxide (CO), and nitrogen oxides (NOx), contributing to a cleaner exhaust output. Designed with integrated mounting flanges and a dedicated sensor port, this unit offers a streamlined installation process and reliable monitoring of exhaust gas composition.

Technical Specifications

Emissions Standard

EU4

Compliance

EOBD (European On-Board Diagnostics)

Targeted Emissions

Hydrocarbons (HC), Carbon Monoxide (CO), Nitrogen Oxides (NOx)

Design & Features

Assembly Features

- Integrated catalytic converter
- Exhaust manifold connection flanges
- Exhaust pipe connection flanges
- Dedicated sensor port
