

EURO 4/5 OBD2 Catalytic Converter

This catalytic converter is designed to control exhaust emissions, ensuring compliance with EURO 4 and 5 standards. It also features OBD2 compliance.

Overview

High-Performance Catalytic Converter

This EURO 4/5 OBD2 compliant catalytic converter is engineered for optimal exhaust flow and reliable emissions control. Constructed from durable stainless steel with a high-quality ceramic substrate, it is designed to meet rigorous EPA and Euro II-V emission standards. It offers a versatile fit for both gasoline and diesel engines, ensuring long-lasting performance and structural integrity.

Technical Specifications

Emission Standards

EPA • OBD • Euro II • Euro III • Euro IV • Euro V

Body Dimensions

15.04 in

Overall Length

11.1 in

Body Length

4.21 in

Body Width

Available Calibers

- 2"
- 2.25"
- 2.5"
- 3"

Fuel Compatibility

Gasoline, Diesel

Construction & Materials

Materials

Component	Material
Body	Stainless Steel
Heat Shield	Stainless Steel
Substrate	Ceramic

Key Features

- 100% Brand New
- Federal Emissions compliant design
- Gasket or Seal Included
- Air Tube Pre-Installed: No
- Body Shape: Oval

Warranty & Compliance

Performance Warranty	25000 miles
Structural Warranty	50000 miles
