

European Plug Power Cord with Exposed Wires

This power cord features a European plug on one end and exposed wires on the other end. It is designed for connecting to machine tools and various electrical applications.

Overview

Professional Power Connectivity

This European plug power cord is engineered for versatility and reliability in various electrical applications. Featuring a standard two-prong European plug on one end and exposed wires on the other, it allows for seamless integration into custom machine tools and low-power electrical equipment. Designed with high-quality insulation, this cord ensures safety and consistent performance for your industrial or commercial projects.

Electrical Ratings

Rated Voltage	250 V
Rated Current	2.5 A

Technical Specifications

Supported Cable Standards

- H30VVH2-F 2X0.75mm²
