

# European Standard 2-Pin AC Power Plug

This plug is a two-pin electrical connector designed for European and similar power outlets. It is constructed from durable plastic and features metal pins for conducting electricity.

## Product Overview

### European Standard AC Plug

This European standard 2-pin AC power plug is engineered for reliable power transmission in residential and commercial environments. Constructed from high-quality ABS material, it features durable copper components to ensure a secure and stable electrical connection. Designed for safety and ease of use, this plug is an essential component for connecting various appliances and electronic devices to standard mains electricity supplies.

## Technical Specifications

Pin Diameter	4 mm
Pin Material	Copper
Grounding	Iron grounding

## Construction

Housing Material	ABS Plastic
Internal Components	Copper parts, Iron grounding
