

Evaporative Air Cooler with Remote Control

This evaporative air cooler provides efficient and cost-effective cooling. It features a multi-speed fan, a water tank for evaporative cooling, and a remote control for convenient operation.

Product Overview

Efficient Evaporative Cooling Solution

This evaporative air cooler offers a cost-effective and environmentally friendly alternative to traditional air conditioning by utilizing water evaporation to lower ambient temperatures. Designed for home or office use, it features a sleek modern aesthetic combined with practical portability via integrated caster wheels. The inclusion of a remote control and multi-speed fan ensures convenient operation and customizable comfort in dry climates.

Performance & Cooling

Performance Highlights

3

Fan Speeds

Cooling Method	Evaporative Water Cooling
-----------------------	---------------------------

Control & Features

Control System

Remote Control • Manual Interface

Key Features

- Multi-speed fan settings
- Large water tank for extended cooling
- Caster wheels for easy portability
- Sleek, modern design
- Eco-friendly operation

Design & Portability

Mobility	Integrated caster wheels for easy movement
Design Style	Sleek and Modern

Environmental Impact

Eco-Friendly	Yes
Recommended Climate	Dry Climates, Arid Regions
