Overview

Versatile 3-in-1 Cooling Solution

This evaporative air cooler combines cooling, humidification, and air purification into a single, multi-purpose machine designed for spaces between 25-30m². Featuring a three-sided air intake system and a large diameter axial flow wind wheel, it delivers a powerful 2500m³/h airflow while maintaining low noise levels. With intelligent remote control, multiple wind modes, and an integrated anion function for air purification, it provides a comfortable and healthy environment for professional or residential settings.
