

Excavator and Loader Bucket Tooth

This bucket tooth is suitable for excavators and loaders. Its high wear resistance ensures increased production efficiency.

Product Overview

Heavy-Duty Excavator and Loader Bucket Teeth

These high-performance bucket teeth are engineered for demanding digging and loading applications in diverse soil conditions. Designed to deliver superior penetration and breakout force, they help maximize machine productivity and minimize downtime. Each component is manufactured for a precise fit, ensuring secure attachment and reliable operation across a wide range of heavy machinery models.

Compatibility

Common Part References

Equipment Model	Part Reference
EX200	4436121RC, EX200-30, EX200-40
EX210/CK90	TB00705, TB00705RC, TB00704
ZX330	4512365RC, 4501625, H401561H
ZX200	H401286H RC, H401285H
ZX240	H401564H, H401565H
ZX450/ZX470	H401478TL, H401478H

Compatible Equipment Types

Excavator, Loader, Bulldozer, Electrical Shovel

Product Features

Key Applications

- Excavator Bucket Teeth
- Loader Bucket Teeth
- Side Cutters
- Bulldozer Ripper Tooth & Shanks
