

Excavator Bucket Side Cutter and Shroud Kit

This kit provides robust protection to excavator bucket sides, preventing wear from abrasive materials. The components ensure extended service life, reduced downtime, and enhanced digging efficiency.

Product Overview

Heavy-Duty Protection and Performance

This kit includes essential side cutters, side protectors, wing shrouds, and vertical shrouds designed for heavy machinery in construction and mining. These high-strength components are engineered to provide robust protection to bucket sides, significantly reducing wear and tear from abrasive materials. By enhancing digging efficiency and safeguarding critical equipment against impact and abrasion, these parts help extend service life and minimize operational downtime.

Compatibility

Compatible Machinery Models

- D950
- L1000
- L1000B
- L1100
- L1350
- L1400
- L1800
- L1850
- L2350
- L2350 HL
- L600DIE
- L800
- L950
