

Excavator Bucket Tooth 6Y3222

This bucket tooth is designed for CAT excavator J220 models. It is manufactured using precision casting techniques for enhanced durability and wear resistance.

Overview

High-Performance Excavator Bucket Tooth

The 6Y3222 bucket tooth is a high-precision casting component specifically designed for J220 series excavators. Engineered for heavy-duty excavation and earthmoving, it features superior impact toughness and wear resistance to withstand abrasive conditions. This alloy steel tooth ensures optimal penetration and extended service life, helping to maintain high productivity while reducing operational downtime.

Technical Specifications

| | |
|-------------|-------------|
| Material | Alloy steel |
| Hardness | HRC 47-52 |
| Net Weight | 1.8 kg |
| Part Number | 6Y3222 |

Compatibility

| | |
|---------------------------|--|
| Compatible Machine Brands | Caterpillar, Komatsu, JCB, Hyundai, Doosan |
| Fitment Series | J220 Parts |

Manufacturing & Quality

Manufacturing Process

- Precision casting
- CNC drilling for accurate bolt hole alignment
- Automatic electrostatic spray painting

Certifications

ISO9001: 2015 • SGS • CNAS

Service & Logistics

Service Highlights

24 Months
Warranty

10 pcs
Min. Order

30 Days
Delivery

Loading Ports

Ningbo, Shanghai, Guangzhou, Yiwu

Packaging

Plywood case

Product Range

Other Available Parts

- Bucket Pin & Bushing
- Bucket Protector
- Heel Shroud
- Cutting Edges
- Chocky Bar & Wear Button
- Side Cutter
- Lip Shroud
