Product Overview

High-Performance Excavator Bucket Tooth

The 9W8452 bucket tooth is a high-strength ground engaging tool designed specifically for E336 and E330 excavators. Engineered from durable alloy steel and heat-treated for superior hardness, this component offers excellent penetration and wear resistance in demanding digging and loading environments. Its robust design ensures a secure fit, helping to maintain machine productivity and minimize downtime during heavy-duty excavation tasks.

Compatibility & Models

Interchangeable Part Numbers

- 9W8452
- 1U3452RC
- 9W8452TL

Compatible Excavator Models

E336, E330

Technical Specifications

Material Composition

High-Strength Alloy Steel • Heat-Treated

Performance Features

- High impact resistance
- Superior wear resistance
- Optimized penetration design
- Secure attachment fit

Suitable Applications

Digging, Trenching, Loading, Material Handling
