Product Overview

Heavy-Duty Excavator Wear Protection

This high-performance tooth and lip shroud system is engineered to protect excavator bucket lips from extreme wear and tear in demanding mining environments. Manufactured from high-strength, hardened alloy steel, these components offer exceptional resistance to abrasion and impact, significantly extending the service life of your equipment. The streamlined design ensures optimal digging performance and efficient material handling, helping to reduce maintenance downtime and maximize operational productivity.

Material Quality

Hardened Alloy Steel • High Impact Resistance • Abrasion Resistant

Compatibility

Compatible Hitachi Excavator Models

EX800, ZX870, EX1200-5, EX1200-6, EX1900-6, EX2500, EX3600

Component Details

Available Wear Parts

- Bucket Teeth
- Tooth Pins
- Tooth Adapters
- Wing Shrouds
- Corner Wear Shoes
- Wear Bars
- Wear Blocks
- Wear Buttons
- Side Cutters

Key Part References

Part Type	Reference ID
Shroud	TBC 140X490-2RB
Runner	KLR02MB
Base	KLB01MB
Lock	KLL01MB
Wear Button	VIDA IB150
Corner Wear Shoe	ES6697-3
