Overview

High-Performance Cutting Edge for Heavy Machinery

This versatile cutting edge is engineered for heavy-duty construction applications, providing superior cutting and scraping capabilities. Designed to fit excavators, bulldozers, and loaders, it ensures efficient earthmoving and grading operations in demanding environments. Its robust construction and precision-engineered mounting holes guarantee a secure fit and extended wear life for your equipment.

Product Identification

Part Number

134844A1

Related Part Numbers

135014A1, 135015A1, 330044A1, 330045A1, 330046A1

Compatibility

Compatible Machinery

Excavator, Bulldozer, Loader

Technical Specifications

Width and Thickness Options

Width (mm)	Thickness (mm)
152	13
152	16
152	19
203	16
203	19
203	25

Length Options

- 1219mm (4ft)
- 1524mm (5ft)
- 1828mm (6ft)
- 2133mm (7ft)
- 2438mm (8ft)

Construction & Features

Key Features

- Precision-cut holes for secure mounting
- Protective coating to resist corrosion and abrasion
- Engineered to meet or exceed OEM specifications
- Durable material for heavy-duty use
