## Product Overview

### Versatile Excavator Tilting Bucket

This hydraulic tilting bucket is engineered to provide exceptional versatility for grading, contouring, and material handling tasks. With a tilting capability of 45 degrees in each direction, it offers a total 90-degree range for precise operation. Built for durability, it features high-grade steel construction, reinforced side-cutters, and wear strips to withstand harsh working conditions.

## Key Features

### Key Features

45° Tilt Each Way, High-Grade Steel, Reinforced Side-Cutters, Bolt-on Cutting Edge, Wear Strips, Easy Maintenance

## Technical Specifications

### Model Specifications

Model	Machine Ton	Capacity (m <sup>3</sup> )	Width (mm)	Weight (kg)
TB030	3-4 Ton	0.142	1200	270
TB050	5 Ton	0.192	1200	306
TB080	8 Ton	0.306	1500	468
TB130	12-14 Ton	0.698	1700	850
TB200	20-25 Ton	0.945	1900	1202
TB300	30 Ton	1.667	2000	2061
TB450	40-45 Ton	1.924	2200	2513

### Tilting Angle

2x45° (90° total)
