

Excavator Piston Main Seal

Piston main seal with accurate dimensions for excavator machines. It is manufactured with NBR materials and complies with international standards.

Product Overview

High-Performance Excavator Piston Main Seal

This high-performance piston main seal is engineered for demanding hydraulic and pneumatic applications, offering exceptional resistance to wear, extrusion, and chemical degradation. Constructed from durable NBR material, the seal features a precision-engineered profile that ensures optimal sealing performance and extended service life. It is designed as an OEM-equivalent solution, providing the same excellent quality as genuine seal kits at a more competitive price point.

Technical Specifications

Material	NBR (Nitrile Butadiene Rubber)
OEM Status	Yes
Warranty Period	6 Months

Compatibility

Compatible Brands	Case, Sany, Komatsu, Volvo, Scmg
Custom Manufacturing	Yes
