

Excavator Side Cutter

Excavator side cutters provide enhanced protection in heavy machinery applications. These components are manufactured with high-quality materials to ensure durability and long service life.

Product Overview

Heavy-Duty Excavator Side Cutter

This side cutter, also known as a side protector, wing shroud, or vertical shroud, is engineered for heavy machinery applications. It is designed to provide enhanced protection and superior cutting performance in demanding environments like construction and mining. Manufactured with high-quality materials, this component ensures long service life and reliable efficiency for your equipment.

Compatibility & Parts

Compatible Part Numbers

- 2713-6050
- 2713-6051
- 2713-1233
- 2713-1232
- 2713-1228
- 2713-1229
- 2713-1059
- 2713-1060
- 2713-6035
- 2713-6034
- 2713-1241
- 2713-1242
- 2713-1240

Reference ID

1230800

Application

Industrial Applications

Construction • Mining • Heavy Industry

Suitable Machinery

Excavators, Loaders, Bulldozers, Motor Graders, Electric Shovels
